HUMAN BY NATURE // THE INTERSECTION OF HUMANITY & THE BUILT ENVIRONMENT

For more than two decades, the green building movement has been helping people understand their role in protecting and preserving the natural environment and leveraging the built environment to: enhance human health and wellbeing, ensure resiliency, mitigate climate change, enhance community and social equity, restore and protect our ecosystems, enhance building efficiency and performance, and promote sustainable design.

The future of the human race is interlaced with the future of the planet, and the sustainable practices we celebrate and advance at Greenbuild remind us that our success as sustainability advocates, practitioners and professionals is **more than a movement, it is a responsibility.**

ABOUT GREENBUILD

The Greenbuild International Conference & Expo is the world's largest conference and exposition dedicated to green building, and it's the place where more than **20,000 attendees** and over **600 brands** from the green building industry come together to do business.

The Greenbuild Expo provides unlimited opportunities to:

- * find new business leads
- * showcase innovative products
- * build relationships
- * close deals and grow your business

The Expo also features our popular Passport to Prizes game, industry presentations, and USGBC updates in our Applied Learning Areas, education labs, and dedicated expo hall hours to ensure attendees have numerous opportunities to connect with you and one another.

67% of Greenbuild attendees have significant buying power, directly evaluate, recommend, or make the final decisions

71% of attendees are involved in both commercial and residential building

71% of exhibitors say they would definitely recommend exhibiting at Greenbuild
